Lift Accessories

Dock Rite Electric Power Winches

They are available in 110 and 12 Volt options. These options come standard with a wireless remote and solar panel, solar mount included.

Solar Panel & Solar Panel Mount

The solar panel provides power for the winch where power is not available.

Adjustable Motor Stop

The adjustable motor stop makes sure that your boat is on the lift properly.

Adjustable Pontoon Motor Stop

The adjustable pontoon motor stop makes sure that your pontoon is on the lift properly.

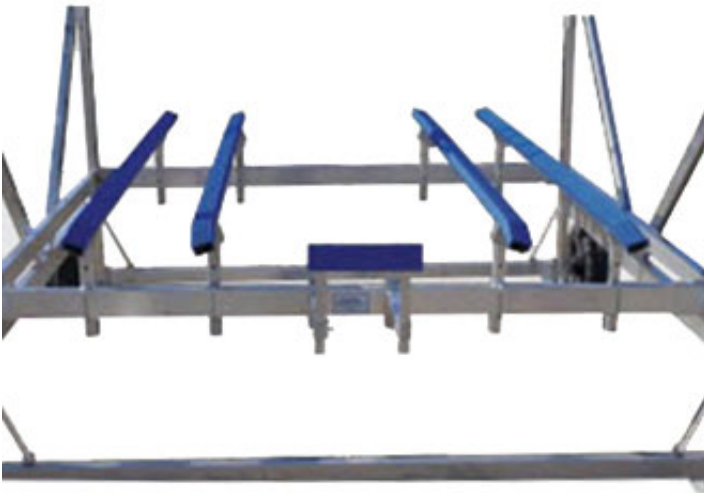

Stationary Wheel Kit

The Dock Rite stationary wheel kit is designed to lift on all four corners for ease of installation and removal of vertical lifts.

16' Wood Pontoon Rack

The wooden pontoon rack lifts your pontoon from the deck and acts as a guide-on.

Double Pontoon Bunks

The double pontoon bunk is used when you want to lift your boat from the pontoons.

Mini Double Bunk System

The Pontoon Mini Bunk Cradle System is designed with low water conditions in mind. They are made with maintenance free vinyl and will give you years of worry free use.

Vinyl Covered Aluminum Full Length

Bunks

They are sold in pairs and are ideal for fiberglass boats. They are made with aluminum and maintenance free vinyl, that will not scrape or scratch your watercraft.

Spring Loaded Guide Sticks

The Dock Rite spring loaded guide stick is sold in pairs. Made with polyethene logs that last longer than foam and make landing your boat easier, especially in rough water.

Spring Loaded (14' Vertical) Full

Length Guide-ons

Made with carpeted wood, they are less likely to damage decals. They are a must if you have an inboard motor boat.

"T" Lift

The "T" Lift is used for raising lift to adjust pads or to put the lift on wheels.
